Art Unit: 2816

1. Applicant's amendment filed on 4/12/06 has been received and entered in the case.
2. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.
3. Claims 1-6 are rejected under 35 U.S.C. 102(b) as being anticipated by Voorman.

See paragraph three of the previous office action for the details of Voorman. As to the amendment to claim 1, so as to recite a resistor connected between an input voltage to the integrator circuit and the input terminal of the transistor stage, note that either input terminal 1 of input terminal 2 can be interpreted as receiving "an input voltage to the integrated circuit" and any one of resistors R41, R42, R43 can now be interpreted as the "resistor" connected between the input voltage (U_{in}) to the integrator circuit. Therefore, this amendment does not distinguish over Voorman.

4. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly,

Art Unit: 2816

THIS ACTION IS MADE FINAL. See MPEP § 706.07(a).

Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
